

Tools for Effective Interface with the DNFSB

Amy Poston, Liaison
Department of Energy
Savannah River Operations Office
April 3, 2001

Tools for Effective Interface with the DNFSB

- DOE Senior Technical Safety Manager Training
 - Enabling Legislation
 - DOE M 140.1-1
- WSRC Steering Committee Meetings
- Focus Area Performance Metrics
 - Survey of DNFSB staff
 - Survey of site personnel
 - Evaluation of correspondence

SRS Focus Area Performance Metrics

- A new performance measurement system to consolidate and consistently display key performance indicators on a site-wide basis
- Provides management a way to view the accomplishments of all SRS programs with a broader, corporate perspective to identify integration and improvement opportunities
- Charted quarterly and built around the five SRS Focus Areas

SRS Focus Area Performance Metrics

- Safety and Security
- Technical Capability and Performance
- **Community, State, and Regulatory Relationships**
 - Meeting Obligations
 - Communication and Trust
- Cost Effectiveness
- Corporate Perspective

FOCUS AREA PERFORMANCE METRICS

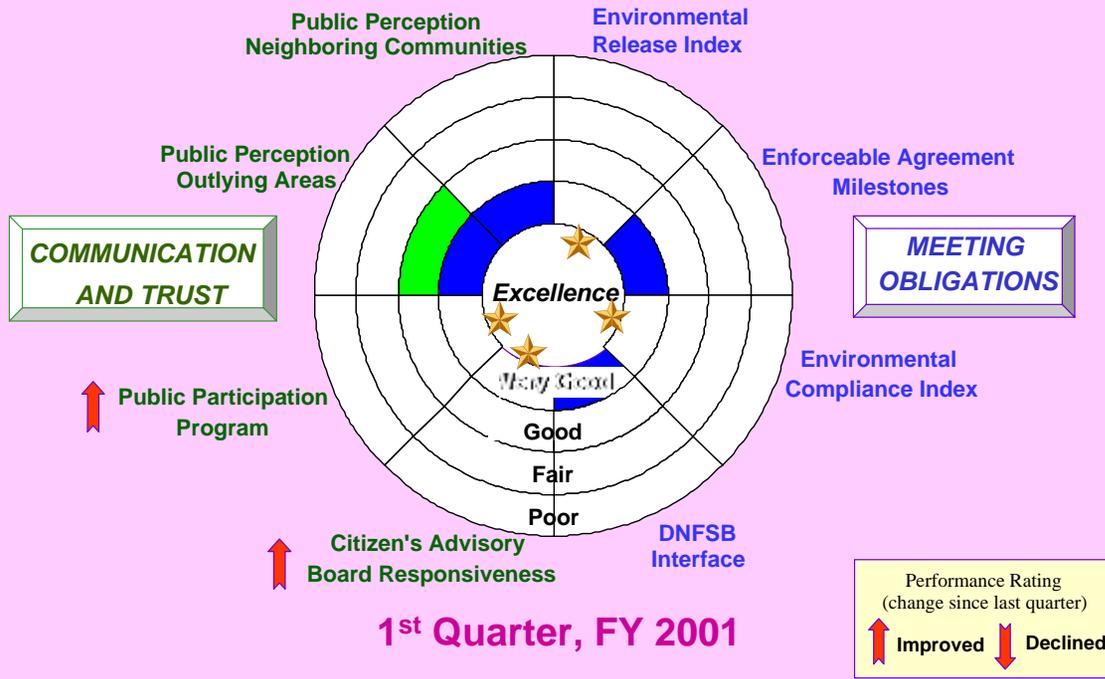

Performance Rating
(change since last quarter)

↑ Improved ↓ Declined

1st Quarter, FY 2001

COMMUNITY, STATE, AND REGULATOR RELATIONSHIPS

SRS Focus Area Performance Metrics

- Lack of response from DNFSB staff
- Consider having the surveys completed during closeout
