

Department of Energy

Washington, DC 20585 MAR 5 2001

The Honorable John T. Conway Chairman Defense Nuclear Facilities Safety Board 625 Indiana Avenue, NW, Suite 700 Washington, D.C. 20004

Dear Mr. Chairman:

When you first brought up the subject of the Corrective Action Tracking System (CATS) Secretary's Quarterly Report at our January 16, 2001, monthly discussion, I understood you to be making a comparison between late headquarters (HQ) actions of my office and those of the Office of Defense Programs (DP).

The inaccurate report you were referencing showed no HQ late actions for DP and 111 for Environmental Management (EM). The Office of Environment, Safety and Health has corrected the referenced report as noted in the attachment. As the memorandum from Mr. Stadler indicates, the correct number for HQ EM late actions should have been "zero". That is not to suggest that there are no late items in the field for both EM and DP. For our part, we are working vigorously to close corrective actions as quickly as possible.

I submit this letter and its attachments to set the record straight regarding the proceedings at the Defense Nuclear Facilities Safety Board Public Briefings of February 13 and 22, 2001, on this matter.

Sincerely,

Carolyn L. Huntoon

Acting Assistant Secretary for Environmental Management

MEMORANDUM FOR: Distribution

FROM: S. David Stadler, EH-2

SUBJECT: Change to the Status of the Department's Corrective Action

Program Quarterly Report, First Quarter, Fiscal Year 2001

The January 8, 2001, memorandum, "Status of Department's Corrective Action Program Quarterly Report, First Quarter, Fiscal Year 2001," included a bar graph that has been revised. The bar graph depicts the Department of Energy (DOE)-wide status of corrective actions in response to safety issues identified and tracked in the DOE Corrective Action Tracking System (CATS) database as of December 31, 2000.

The bar graph lists the Assistant Secretary for Environmental Management (EM) as the responsible organization for 111 late actions. These 111 late actions were based on the approved Corrective Action Plan (CAP) submitted by the Portsmouth Gaseous Diffusion Plant in response to safety issues identified in the *Report on the Independent Investigation of the Portsmouth Gaseous Diffusion Plant, May 25, 2000.* The Oak Ridge Operations Office (OR) entered EM as the "Responsible Organization" and "Responsible Cognizant Secretarial Officer" for this CAP in the CATS database.

Based on EM's request, the "Responsible Organization" for this CAP was changed in the CATS database from EM to OR. Environmental Management also requested the revision be included as a change to the 1st Quarter FY 2001 Corrective Action Program report. The revised bar graph (see attachment) reflects this change.

Please replace the bar graph at attachment 2 of the 1st Quarter FY 2001 Corrective Action Program report with the attached, revised bar graph.

If you have any questions concerning this action, please contact me at 301-903-6457 or Steve Petersen at 301-903-4022.

S. David Stadler, PhD

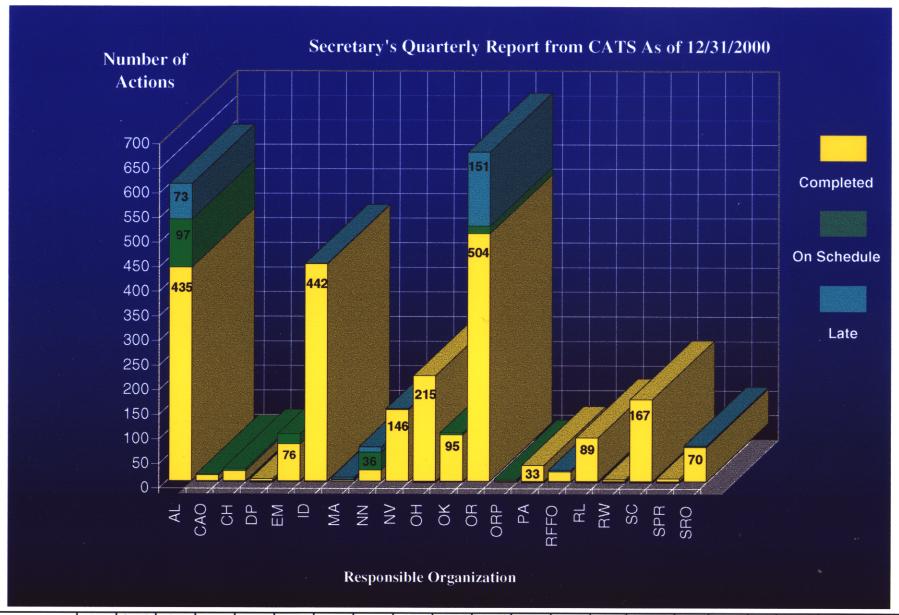

Deputy Assistant Secretary

Office of Independent ES&H Oversight

Environment, Safety and Health
