

DOE Order 430.1A

"Life Cycle Asset Management"

Performance Based Contracts: Order Review Panel Decision On Team Report Recommendations

The Panel has reviewed the subject report and has disposed of the recommendation contained therein as follows.

We concur in the team report recommendations, which are to: retain the CRD; designate ME-90 as the Office of Primary Interest for Real Estate, Comprehensive Land Use Planning, and Maintenance Management; and designate EM as the Office of Primary Interest for the process of transferring contaminated facilities to EM for deactivation, decontamination, decommissioning, and disposal. Additionally, you are to revise the CRD to distinguish between facilities we are keeping for the long term and those we will not.
