

DOE O 452.2B
"Safety Of Nuclear Explosive Operations"

Performance Based Contracts: Order Review
Panel Decision On Team Report Recommendations

The Panel has reviewed the subject report and has disposed of the recommendation contained therein as follows.

We do not concur in the team report recommendation, which is to retain the CRD of the Order as it is currently written. You are to review this Order and its CRD and the following directives: DOE Order 452.1B, Nuclear Explosive and Weapon Surety Program; DOE Order 452.4A, Security and Control of Nuclear Explosives and Nuclear Weapons; and DOE Manual 452.4-1, Protection Of Use Control Vulnerabilities and Designs. The purpose of your review is to determine if the four directives can be combined into one directive with one CRD. Additionally, you are to revise the Applicability paragraph of the resulting directive (or directives) where it addresses contractors and conform it to the format required by the current version of the DOE Order on the Directives System. You are to restrict applicability to major facility management contractors that must be covered.
