

The Secretary of Energy
Washington, DC 20585

July 21, 2004

MEMORANDUM FOR KYLE McSLARROW
DEPUTY SECRETARY

DAVID K. GARMAN
ACTING UNDER SECRETARY FOR ENERGY, SCIENCE,
AND THE ENVIRONMENT

LINTON BROOKS
ADMINISTRATOR, NATIONAL NUCLEAR SECURITY
ADMINISTRATION

FROM: SPENCER ABRAHAM

A handwritten signature in black ink that reads "Spencer Abraham".

SUBJECT: Delegations of Authority on Defense Nuclear Safety Matters to
Field Offices

After a thorough review of the Defense Nuclear Facilities Safety Board's Recommendation 2004-1 (issued May 21, 2004) on oversight of complex, high-hazard nuclear operations, I accept the recommendation.

This Recommendation, in part, raises concerns regarding delegations of authority on defense nuclear safety matters to the field offices. Until the Department has developed and issued its 2004-1 implementation plan and completed the applicable 2004-1 plan actions, no such new delegations regarding safety functions and responsibilities for nuclear operations at defense nuclear facilities shall be made, except as approved by either the Deputy Secretary or Secretary of Energy. However, delegation modifications that may be required as a result of personnel changes or delegation expirations may continue to be issued without approval by the Deputy Secretary or Secretary.
