

## Department of Energy

Washington, DC 20585

January 6, 2006

The Honorable A. J. Eggenberger  
Chairman  
Defense Nuclear Facilities Safety Board  
625 Indiana Avenue, NW Suite 700  
Washington, D.C. 20004-2941

Dear Mr. Chairman:

On February 28, 2005, the Department of Energy provided a schedule to develop, revise, approve, and issue directives related to software quality assurance. The purpose of this letter is to provide you with the status of these directive changes.

On June 17, 2005, DOE O 414.1C, *Quality Assurance*, and DOE G 414.1-4, *Safety Software Guide for use with 10 CFR 830 Subpart A, Quality Assurance Requirements*, and DOE O 414.1C, *Quality Assurance*, were issued. With the issuance of these two directives, the attached list has been revised to show the new schedule for revising other directives to reference the revised Order and the new software quality assurance Guide.

We will continue to actively involve your staff in the directive revision process. Questions concerning this commitment may be directed to me at (202) 586-1772 or Robert Loesch at (301) 903-4443.

Sincerely,

A handwritten signature in cursive script that reads "Robert Loesch".
