

Department of Energy
National Nuclear Security Administration
Washington, DC 20585

July 14, 2008

The Honorable A. J. Eggenberger
Chairman
Defense Nuclear Facilities Safety Board
625 Indiana Avenue, N.W., Suite 700
Washington, D.C. 20004-2901

Dear Mr. Chairman:

This letter is to inform you that the National Nuclear Security Administration (NNSA) has completed commitment 504-2 of the Implementation Plan for Defense Nuclear Facilities safety Board Recommendation 2000-1, Stabilization and Storage of Nuclear Materials. Commitment 504-2 was to stabilize all non-weapons-grade nuclear material (186 kg) at Los Alamos National Laboratory by June 30, 2008.

Enclosure 1 is a letter from Los Alamos National Security LLC reporting completion of the milestone. The NNSA Los Alamos Site Office verified completion of this milestone as documented in Enclosure 2.

If you have any further questions, please call me at (202) 586-2181 or call Sujita Pierpoint at (301) 903-9601.

Sincerely

A handwritten signature in black ink, appearing to read "Gerald L. Talbot, Jr.", written over a horizontal line.

Gerald L. Talbot, Jr.
Assistant Deputy Administrator
for Nuclear Safety and Operations

DATE: JUL 02 2008
REPLY TO:
ATTN OF: 4700 NSM;8MH-007
SUBJECT: COMPLETION OF DNFSB 2000-1 IMPLEMENTATION PLAN MILESTONES

TO: Michael Thompson, Assist Deputy Administrator, Facility & Infrastructure Acquisition & Operations, NA-17, HQ/FORS

This memorandum provides the Los Alamos Site Office recommendation for approval for the Completion of DNFSB 2000-1 Implementation Plan Milestones, June 25, 2008 (Attachment 1).

A LASO verification of milestone 2794 supporting DNFSB Recommendation 2000-1 has been performed. A weekly status review was done on the completed items spreadsheet that listed individual items processed or repackaged, as well as the completion data and endpoint. Then an evaluation of the automated nuclear material accounting system in which items were selected randomly and a review of the item activity history that indicated repackaging or processing history and subsequent disposition was held.

Based on my review, this milestone is met and the completion of this milestone satisfies the commitment between LANL and DOE/NNSA as defined in the LANL Materials Stabilization Project Execution Plan, and the DOE's commitments to the DNFSB. If you have any questions regarding this approval please contact Michael Heil of my staff at (505) 665-5920.

Daniel E. Glenn
Technical Deputy Manager

SUBJECT: COMPLETION OF DNFSB IMPLEMENTATION PLAN MILESTONE

Mr. Griego:

As detailed in the attached LANL memo, we have completed the intermediate milestone of stabilizing all non-weapons-grade material as a part of the Los Alamos National Laboratory Materials Stabilization Project Execution Plan (the "00-1 Project") by 30 June 2008. Please contact me if you have any questions.

Sincerely,

Robert W. Margevicius
Program Manager

SUBJECT: COMPLETION OF DNFSB 2000-1 NON-WEAPONS GRADE MILESTONE

This memorandum serves as notification that LANL has stabilized 186.1 Kg of non-weapons grade (NWG) nuclear material as of June 24, 2008. This milestone satisfies the commitment between LANL and DOE/NNSA as defined in the LANL Materials Stabilization Project Execution Plan, and later modified according to the attached Baseline Change Request (Memorandum 4700 NSM:8MH-003, Nov. 26, 2007). The revised commitment statement is as follows:

- Stabilize all non-weapons grade NWG (containing MT 54-57, 42 & 83) materials (186 kg) by June 30, 2008.

Prior to February 2008, 170.3 Kg NWG had been stabilized. Since then, the following amounts have been stabilized:

1.6 Kg in WIPP Drum
7.7 Kg in SNMC
2.6 Kg in 3013 Package
3.9 Kg in Glovebox

If you have any questions regarding this information, please contact Lyndsay Remerowski at 505-665-4729.
