DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Washington, DC 20004-2901

February 25, 2016

Mr. Douglas Hintze
Manager, Department of Energy
Environmental Management Los Alamos Field Office
3747 West Jemez Road
Los Alamos, NM 87544

Dear Mr. Hintze,

We invite you to appear and provide testimony at a Public Hearing on the Potential Hazards to the Public and Workers Posed by the Transuranic (TRU) Waste Stored at the Los Alamos National Laboratory (LANL). The hearing will take place on March 22, 2016, in Santa Fe, New Mexico. Please be prepared to discuss your perspective on the hazards posed to the public and workers by the containers of remediated nitrate salt waste currently stored at Area G and actions taken or planned by DOE to resolve known inadequacies in the current safety bases of the various facilities that store TRU waste at LANL. Further, please be prepared to discuss actions taken to strengthen TRU waste management at LANL stemming from the Waste Isolation Pilot Plant accident and the associated investigation findings.

The format for this hearing provides opportunity for witnesses to respond to questions from Board Members. The agenda as approved by the Board is provided in the attachment to this letter. The agenda for the hearing also will be posted on the Board's web page **www.dnfsb.gov.** As hearing preparations are finalized, the agenda may be updated. We will keep you apprised of any changes.

The Board looks forward to your participation. Please contact Mr. John Pasko (202) 694-7117 or Mr. Steven Stokes (202) 694-7143 should you have questions or to make any necessary arrangements for your attendance.

Sincerely,

Joyce L. Connery
Chairman
