

Office of Environment, Safety and Health (EH)

Office of Safety and Health
(EH-5)

Safety and Health Programs

- Department of Energy Laboratory Accreditation Program (DOELAP)
- Voluntary Protection Program (VPP)
- DOE Technical Standards Program
- Safety and Health Web Sites
- Regulatory Interpretations Network
- BeLPT Contract and Protocol
- Federal Employee Occupational Safety and Health (FEOSH) Program

Safety and Health Policy

- Nuclear Facility Safety (10 CFR 830)
- Radiation and Occupational Safety (10 CFR 835, 850, Order 440, DOELAP)
- ISM Policy and Institutionalization
- Facility Design Criteria (fire, criticality, etc)
- Safety Management Programs
- Explosives and Construction Safety
- DOE Safety Management FRAM
- Requirements of 29 CFR 1960 (record keeping) and 29 CFR 1960 (FEOSH)

Delivering Service

- Working Groups - Mound site issue with metal tritides and litigation, and plutonium
- DNFSB Interactions
- Implementation Workshops
 - Beryllium, VPP, DOELAP, etc.
- ISM Implementation guidance
- FEOSH
- NRC Interactions
- OSHA MOU for Privatization, VPP, etc.

Recent Secretarial Initiatives

- Gaseous Diffusion Plants
 - Master Plan
 - Exposure Assessment at Paducah
- Adoption of Federal Wildland Fire Management Policy
- Nuclear Safety Management Rules
- Safety Standards for new DOE nuclear facilities
- Privatization of facilities

Expertise in EH-5

- Health Physicists - 6
- Industrial Hygienists - 11
- Nuclear Safety/Engineers - 5
- Occupational Safety/Engineers - 8
- Physical Scientists - 5
- Engineers (chem., elec., civil, fire, etc.) - 13
